Danylo Shyrai

Trainee Front-End Developer

Summary of Qualifications	I've got good knowledge of HTML markup language, CSS styles and JavaScript. I able to make a sematic, responsive web site, animate it using keyframes and pseudo-classes, position elements using displays like flex and grid, use SCSS mixins and make more complex elements using JavaScript such as accordion, burger-menu and I know difference between ES5 syntax and ES6. Also, I've got knowledge of jQuery.
Skills	• HTML (1.5 years experience) • CSS/SCSS (1.5 years experience) • JavaScript (1 year experience) • jQuery (6 month experience)

Experience / IT related educational practice	No work experience. I finished a course from Beetroot academy: Front-End Developer (October 2021- March 2022) and crash course from SoftServe "Js Fundamental" (October-December 2022).
	
	I have some pet projects on GitHub:
	
	• Auto parts store:
	
	   GitHub: https://github.com/ShirayDan/Auto-parts-store
	   Pages: https://shiraydan.github.io/Auto-parts-store/
	
	• Appie app:
	
	   GitHub: https://github.com/ShirayDan/appie
	   Pages: https://shiraydan.github.io/appie/

Education	Studying at National University "Yuri Kondratyuk Poltava Polytechnic", bachelor's degree, Computer Science 2021-… (2 course)
Languages	English: Pre-Intermediate, Ukrainian: Native.
